

#DISCOVERLOCALJOBS ALUMNI OF LOCAL SCHOOLS SHARE ADVICE ABOUT EXPLORING CAREER OPPORTUNITIES IN OUR REGION

ANAM

"DO WHAT YOU LOVE! Don't chase the money; chase your heart. You don't want to study for four years and then come to find out your job is boring. Volunteer a lot so you know where you fit in and what you like doing."

MICHAEL

"Take the choice of career path seriously. Don't feel pressured to choose quickly or just take the easy path. It may feel like you're wasting time or falling behind, but taking the time to figure out what you really want to do with your career will pay off big time down the road."

YOUCEF

"Have an open mind about what careers to pursue and reach out to individuals within those careers to learn about what they do. Reach out to individuals that you look up to and ask for help or mentorship. This can eventually lead to learning about different opportunities and careers."

MARIE

"Be okay with not knowing everything about anything, including what you want to do with your life. No one's path is straight and it may take a few turns before you finally feel like you're on the right journey. Enjoy the wrong turns, because that will ultimately make who you aspire to become."
