

## Exploring Industries

### TARGET GRADES

Middle School and High School

### OBJECTIVE

Students will learn about various careers through utilizing “[Industry Posters](#)” to support them in thinking about their future career

### MATERIALS

Blank paper  
Coloring materials

### PREP TIME REQUIRED

5 minutes

### PREP STEPS

Have student grab materials

Direct students to this link or screen share

<https://discoveruwa.org/wp-content/uploads/2019/09/DiscoverU-Industry-Posters-color.pdf>

### ACTIVITY TIME REQUIRED

30+ minutes

### ACTIVITY INSTRUCTIONS

Have students divide their paper into 10 squares, which do not have to be even nor perfect. Follow the link to the “[Industry Posters.](#)” Go to the first poster and explain the featured industry to students utilizing the poster. Once finished with the first poster, you will ask students to choose a job example and draw an object that is related to that job example or draw a person in that job field in the first square. You will do this 9 times, until you get through the 9 posters. In the last square, ask students to draw themselves in a career field they can see themselves going into now that they have learned about 9 different career industries.
